DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Claims 1, 2, 6-12 and 20 are rejected under 35 U.S.C. 102(b) as being anticipated by Clayton et al. 3,337,391.

Claim Rejections - 35 USC § 103

3. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
4. Claims 1, 2, 6-12 and 20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Clayton et al. 3,337,391.
5. The rejections are maintained in view of the "Response to Arguments" set forth below.

Response to Arguments

6. Applicant's arguments filed 1/29/09 have been fully considered but they are not persuasive. The compounds described by Clayton et al. are organic. Clayton et al. call them "organic titanium compound"-s in column 1, line 26. According to "the Condensed Chemical Dictionary, Tenth Edition, Revised by Gessner G. Hawley, page 762, line 13, organometallic compounds are organic. Furthermore, the coating process of Clayton et al. is the same as the pre-reaction process of applicants', namely admixing the organic compound in solvent, in this case benzene, adding it to the silica and letting the solvent evaporate. See column 1, lines 61-70. Since Clayton et al. state that the

Art Unit: 1796

organometallic compound is capable of reacting with the siliceous surface (column 1, lines 36-38) it is fair to assume that under the same conditions the same process will occur. The rejections stand.

7. All other rejections are maintained in view of applicants' arguments.

Allowable Subject Matter

8. Claims 3-5 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

9. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
